**Helping people live
well with dementia and
memory issues**

Help at home

Are you worried about your memory? Can you remember your wedding day or holidays in the past but forget what you had for breakfast, or what you saw on the TV last night?

We can all forget things, but if you are concerned that your, or a loved one's memory is getting worse then help and support are available through Curo's Rural Independent Living Service.

As part of our service we can provide a personal alarm that allows users to live independently with peace of mind.
